

This year it was learned that the Universe itself was created by massive deficit spending  
Quest'anno é stato scoperto che l'Universo stesso é stato creato da massiccio "deficit spending"

and we're all  
living on  
borrowed time...

e viviamo  
tutti quanti  
con tempo prestato...

and I've just stolen some of yours...

Maybe you should think about what's left.

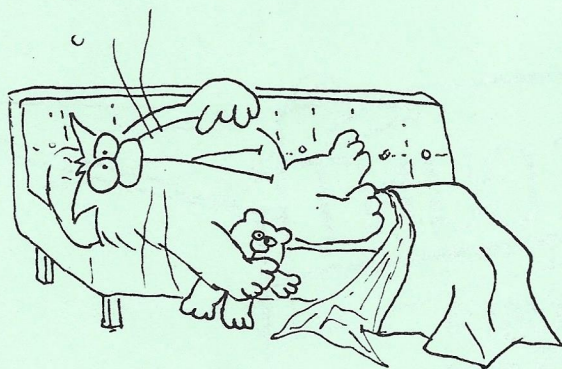

ed io ti ho appena rubato un po' del tuo...

forse dovresti pensare a quello che ti rimane.

And smile if you can. Humor helps,

E sorridi se puoi. L'umorismo aiuta.

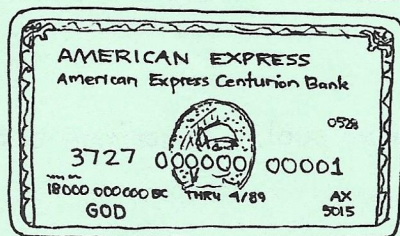

dr bob thanks the Institute of Theoretical Physics  
of the University of Stockholm for the uncooperative  
sofa bed responsible for keeping him awake long  
enough to cook up this halfbaked idea for a card.  
Tack.

Hi.

I guess you can say I'm pretty  
famous but you may not  
recognize My face,  
so when I travel...

the only company to offer the  
exclusive Plutonium card

I just wanna know,  
who's gonna cut up  
His card... ?

This greeting card is protected by  
international copyright and a herd  
of charging bull elephants (using  
the Gold card of course)
